ABOUT US

Safeguard Solutions began with a belief shared by our founders, **Mr. M. I. Murad** and **Mr. Zulfikar Raja**.

Mr. M. I. Murad is a distinguished sales leader with more than two decades of progressive experience in the industrial products sector. His career reflects a consistent record of driving revenue growth, penetrating new markets, and cultivating enduring client relationships across diverse industries. With a unique ability to align technical product knowledge with strategic business acumen, Mr. Murad has established himself as a trusted advisor and a catalyst for organizational success.

Mr. Zulfikar Raja is a business tycoon and visionary force who has dominated the industrial segment for over a decade. Renowned for his sharp business acumen and relentless drive, he has transformed challenges into opportunities, positioning himself as a catalyst for growth and innovation. His mastery of precision measuring instruments and industrial solutions has not only elevated industry standards but also established him as a trusted authority in technical excellence and commercial strategy.

Every workplace deserves protection built on trust, skill, and precision.

We shaped our company around this purpose, supplying dependable safety and industrial solutions that teams can rely on. Our focus is simple; supporting industries that value accurate workmanship, true teamwork, and the people who make safety possible.

We stand beside our customers as they work to protect their workforce, maintain strong, reliable connections, and keep operations running smoothly.

WHY INDUSTRY LEADERS

TRUST SAFEGUARD SOLUTIONS

MISSION

We bring together trusted protection, skilled craftsmanship, and precise technology to deliver products that enhance safety, improve workflow, and support the hands-on teams who make operations possible.

OUR VISION

We aim to set a global standard for industrial safety and operational excellence by offering a full range of solutions defined by innovation, quality, sustainability, and the continuous progress that every workplace deserves.

HUMAN BODY & INDUSTRIAL CLEANING

We provide cutting-edge cleaning solutions engineered for both human body dedusting and factory cleaning across workshops, production floors, and outdoor operations ensuring workforce safety, effective removal of hazardous contaminants, and full regulatory and environmental compliance with absolute confidence.

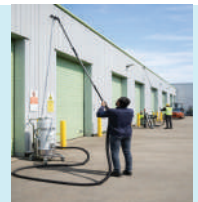

STORM Blow-Off Station – USA

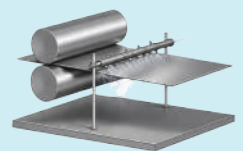

Dust Evacuator, human body cleaning & De-dusting System, safety products offer a superior and secure alternative to compressed air, delivering enhanced protection for both organizations and personnel during de-dusting operations. Powered by advanced blower-driven air technology, STORM systems effortlessly remove dust, fibres, and moisture while prioritizing human safety through a low pressure, high velocity design. Trusted and widely adopted across the globe, the STORM Safety range stands as an essential solution for achieving efficient, reliable, and OSHA compliant operations.

Industrial Part Cleaning System

Over Height Cleaning

Rolling Mill Roll & Sheet Cleaning System

Typical Applications Include :

- Dust of Industrial Furnace
- Cement and Plasterboard Mfg.
- Mining & Minerals
- Quarrying/Stone/Aggregate Facilities
- Powder Coating, Castings & Chemicals
- Plastic, Fiber and Rubber Production
- Paper and Tissue Production
- Carpet and General Textile Mfg.
- Construction / Demolition
- Wood Working & Forestry
- Grain Milling / Agriculture
- Food Industries / Laboratories

Air Shower / Booth

Industrial Vacuum Cleaner

Sewer Cleaning System

Pipe Cleaning System

High Pressure Pipe Cleaning

INDUSTRIAL SAFETY PRODUCTS

We understand the hazards you face every day. Our range of safety gear is designed to reduce risks while helping teams work at their best.

Safety Helmet

Wilder Goggles

Hearing Protection Set

Full-Face Gas Mask

Face Shield

BALACLAVA Face Mask

Aluminized Kevlar Suit

PPE Clothing

High-Visibility Safety Vest

Safety Harness With Twin Lanyard

Medium Palm Coated Protector

Hand Cleaning Machine & Solution

Safety Shoes & Boots

Fire Extinguishers & Fire Ball

Lockout Tagout Safety Kit

Smoke Detection System

Industrial Ventilation Fan

Traffic Safety Cone

Industrial Safety Flashlights

Ladders

Safety Marking Tape Rolls

Vertical Eyewash & Bodywash

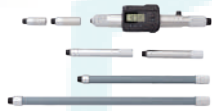

PRECISION MEASURING INSTRUMENT METROLOGY

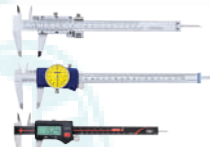

We are committed to equipping industries with high-performance precision measuring instruments engineered for exacting dimensional verification. Our gauges and indicators are designed to minimize errors and enhance accuracy throughout every stage of inspection and production.

Micrometer

Inside Micrometer

Vernier Caliper

Digital Indicator

CMM (Coordinate Measurement)

PRECISION MEASURING INSTRUMENT ELECTRICAL

We have a range of electrical and electronic measuring instruments that give technicians clear, dependable readings for diagnostics, testing and system checks. Each device is built to capture accurate data on site, supporting safer maintenance and informed decisions.

Multimeter

Clamp Meter / Tong Tester

Electrical Tester / Voltage Tester

Earth Resistance Tester

Light Intensity / LUX Meter

Sound Level Meter

Gloss Meter

Digital Color Meter

Coating Thickness Gauge DFT Measure

HYDRAULIC TOOLS

Our advanced hydraulic tools are engineered to lift, position, and move the heaviest industrial loads with precision delivering powerful, controlled performance and unmatched reliability across workshops, worksites, and production plants.

Hydraulic Bolt Tensioner

Hydraulic Power Pack / Pump

Hydraulic Control

Hydraulic Square Drive

Hydraulic Torque Wrench

Hydraulic Cylinder Set

Hydraulic Maintenance Tools

Hydraulic Cable Cutter

Hydraulic Flange Spreader

Hydraulic Cylinder

Bottle Jack

Bottle Jack Heavy Duty

Hollow Ram Jack

Pancake Jack

Mono Stressing Stand Jack

Car Jack

Hydraulic Puller

Hydraulic Press

Manual Hydraulic Pallet Jack

Hydraulic Engine Crane

Pulling Lifting Machine

Gear Trolley

Chain Pulley Block

Ratchet Lever Hoist

Barrier Lift

FLEXIBLE SCREW CONVEYOR-MATERIAL TRANSFER SYSTEM

A Flexible Screw Conveyor is a versatile material handling machine designed to transfer bulk solids such as cement, slag, sand, powder and industrial dust efficiently. Capacity Range: 3 to 15 tons per hour, Simple design with minimal maintenance, Can handle abrasive and dusty materials, Flexible routing for easy installation in tight spaces.
